A. FIRE SPRINKLER CLARIFICATIONS

1. The existing building has fire sprinklers. The scope of work required under this contract is the modification of the existing fire sprinkler system to relocate heads as required due to new wall locations. The work may also require the installation of additional sprinkler heads. The Contractor will be responsible for providing fire sprinkler drawings and calculations as required for permitting of
the sprinkler system modifications. As a remodel to an existing system, the minimum code required coverage only will be needed.
2. Existing fire sprinkler drawings are not available.

B. FIRE ALARM CLARIFICATIONS

1. The existing building has a fire alarm system. The scope of work required under this contract is the modification of the existing fire alarm system to relocate components as required due to new wall locations.
2. Duct smoke detectors are not required for this scope of work.
3. Existing Fire Alarm Drawings are not available

C. BID DATE REVISION

1. The Bid date is changed as follows
