6.1 Communications center update, with regard to combining SRVFPD/SRPD Dispatch, by Chief Meyer, Technology Systems Manager Call and Communications Manager Denise Pangelinan.

Chief Meyer, TSM Call and CM Pangelinan discussed improvements to existing service and how the SRVFPD will transition from a secondary PSAP (Primary Public Safety Answering Point) to a Primary PSAP (City of San Ramon). Mobile calls within the San Ramon Valley will be routed to the new communications center directly. This partnership will result in the first and only point of contact for citizens when they call for emergency assistance. Call processing times will be reduced, prompting the reduction of response times to the actual location of the emergency. The police department will have access to more current and detailed property information and maps throughout the city. The District’s Automated Vehicle Location (AVL) system, which provides real-time location information on all MDC-equipped units, will be available for police use. It was relayed that a shared communications center will enhance public safety, reduce response times, increase the level of service to the community and reduce overall expenses for both agencies.

Local 3546 President, Mike Mohun, was present during the meeting. Deputy Fire Marshal Stevens reported that (ISO) Insurance Services Office records identified 730 properties as “non-sprinklered.” Code Compliance Officer Rian Evitt coordinated efforts among staff members to inspect these properties. Consequently staff found 535 building in compliance, 64 (incorrectly identified by address) and 131 properties as “non-sprinklered.” Property owners were sent a letter recommending that they contact their insurance provider to update their building information.

Annual Fire Code Compliance Inspections have led Code Compliance staff to the conclusion that the staff of Residential Care Facilities, for the elderly and/or developmentally disabled, are unclear about how to test smoke alarms. Inspector Natalie Probert took the initiative to locate a tool that would better assist staff that provides care to this vulnerable population. With assistance from the San Ramon Valley Citizen Corps Council, smoke alarm testers were purchased and will be provided to these homes during their annual inspections. Each smoke alarm tester will come with simple instructions for use and a monthly testing log.

Fire Specialist Joyce Castro has been facilitating and distributing the new pre-plan booklets to all of the District’s in-service engines, ambulances and Chiefs. San Ramon and Danville Police Departments were also provided booklets. (Pre-plan booklets provide aerial photos, detailed plans and emergency contact information for the large buildings and schools located within the San Ramon Valley). Approximately 90% of the 484 pre-plans had changes submitted since the booklet’s last printing in 2010.

Deputy Fire Marshal Stevens concluded with a brief discussion about a preliminary fee study, led by Inspector Julie Bartusch, with regard to comparing current costs for services and staff time for permit activities. This study will provide a basis for evaluating whether the current fee schedule is commensurate with the District’s cost recovery policy.
